EXPERIENCE

Full-Stack Entineer

Global Dynamics (Turkey)

June 2025 – May 2026

Remote

React.js 19, Next.js 16, TypeScript, Zustand, React Query, Tailwind CSS, Node.js, Express, Nest.js, Fastify, System Design, Docker, Testing, Cloud Fundamentals

- Leading frontend development for multiple national-scale systems in Iraq with a focus on scalability, modular design, and security.
- **LMS for Police Academy:** Developed a complete learning management system featuring chat between students and instructors, academic statistics, and secure multi-level access for administrators.
- **Training Center Management System:** Built a nationwide platform for managing training centers, trainers, and trainees with performance tracking and reporting dashboards.
- **Crime & Legal Center:** Designed and implemented a high-security system for crime reporting and case management integrated with the legal department, serving over 1 million potential users.
- Enhanced UX and optimized rendering performance through code-splitting, caching strategies, and component memoization.

Frontend Engineer

Forever Events (Dubai)

Sep 2025 – Mar 2026

Remote

Next.js 15, React.js 19, TailwindCSS, TypeScript, SEO Optimization, Headless CMS

- Built and optimized modern e-commerce and corporate websites with dynamic CMS and CRM integrations.
- **Diaflower Project:** Developed a high-performance gifting and flower e-commerce platform with full CMS control for homepage layout, sections, and SEO content.
- Implemented advanced SEO optimization, achieving top rankings for multiple business keywords.
- Delivered responsive and accessible UI with reusable components to accelerate new project setup.

Frontend Engineer

Grwan Group (Dubai)

Mar 2025 – Nov 2025

Remote

React.js 19, Next.js 15, TypeScript, React Query, Tailwind CSS, Figma

- Built the **LeanGo Platform**, a suite of enterprise systems for industrial and facility management.
- **LeanGo Inspection:** Facility Management software managing inspections and maintenance with modular apps for each department.
- **LeanGo WMS:** Warehouse Management System monitoring factory and institution inventory with role-based access and reporting dashboards.
- **LeanGo E&T:** Social network for enterprises, enabling organizations to track and improve employee skills and performance.
- Collaborated with designers and backend teams to ensure high performance, scalability, and brand consistency.

Frontend Engineer

ASDC (formerly RASID, Egypt)

Oct 2023 – Mar 2025

Cairo, Egypt

React.js, TypeScript, Redux Toolkit, style-components, Tailwind CSS, Design System

- Developed a comprehensive **Facility Management System** for large organizations, hotels, and malls.
- Designed ERP modules managing staff data, shifts, payrolls, holidays, and financial reporting (gross, net, and total company income).
- Improved the frontend architecture with reusable hooks and modular design, reducing code redundancy.
- Integrated advanced data visualization for company KPIs and workforce analytics.
